#### **Dr Xavier Savarimuthu SJ**

##### *Library & Research Director, St Joseph's University, Bengaluru*

Rev. Dr. Xavier Savarimuthu, SJ, has been the Head and Associate Professor of Environmental Studies at St. Xavier's College, Kolkata, since 2000, contributing to higher education for almost a quarter of a century. He has played an efficient administrative role in being the Vice-Principal of the Department of Commerce, Assistant Director of Central Library, and the director of Father Leeming's Boy's hostel. He held the position of International Exchange Program Professor at Santa Clara University, San Jose, California and Donald MacLean Chair at Saint Joseph's University, Philadelphia, USA. He has contributed a Cambridge University Press text book for UG, PG and Engineering titled, "Fundamentals of Environmental studies". His latest book in 2021 was on "Go Green for Sustainability" by Taylor & Francis. Father Xavier is a Ph.D Supervisor under the University of Calcutta, Viswabharathi (Tagore's Shantiniketan University) and an examiner of Ph.D thesis for many Universities in India. His feather in the cap was when he delivered lectures at the University of Oxford and at the United Nations' Climate Summits while attending the famous COP 21 in Paris, France and COP 23 in Bonn, Germany. As a prolific writer, he has published research papers in journals of national and international repute. His latest article, "The Earth We Want Requires Reconciliation" was published in four different languages, namely, French, Spanish, Latin, and English. <https://scholar.google.co.in/citations?user=pnIoXPgAAAAJ&hl=en>

#### **Mr Stani Jude John**

##### *Statista GmbH, South India & Sri Lanka*

Mr Stani Jude John is the Sales Manager for Statista, handling the academia vertical for the regions: South India and Sri Lanka. He has over eight years of experience. He has worked with some of the premium institutions in the country and has catered to their academic and research requirements.

**About Statista:** Statista is one of the world's largest statistics, data and research platforms with access to more than 1.5 million data on 80,000 topics. The platform professionally gathers and compiles content from more than 22,500 sources worldwide (300-500 new data are uploaded daily). To date, more than 25,000 companies and organizations, as well as around 4500 universities worldwide, use Statista access. Statista is one-of-a-kind resource and has been widely used by research communities across the globe. Statista can be found cited in some of the top journals from various domains, including Marketing, Environmental Sciences, Technology, Medicine, Social Sciences, Media and Communication.
